EPHRAIM F. MORGAN,  
GOVERNOR OF WEST VIRGINIA.

SIR:—I herewith submit to you my fourth Annual Report of the Department of Mines, it being the forty-first annual report of the condition of the coal industry of the state. The period covered by the statistics shown therein is for the fiscal year beginning July 1, 1922, and ending June 30, 1923.

During the year covered by this report there were 1,110 companies reporting 1,702 operating mines, which, together with the small wagon mines, produced 87,031,408 gross tons of coal, an increase over the coal produced the previous year of 16,143,205 gross tons.

Below you will find a comparison of the production of coal and coke for the fiscal years 1922-23, together with the increase of same:

	1923	1922	Increase	Increase in Per Cent.
Coal.....	87,031,408	70,888,203	16,143,205	18.55
Coke.....	823,912	175,156	648,756	376.08

You will note from the above that the production of coal for the year covered by this report has increased 16,143,205 gross tons over the year 1922, while the production of coke during the same period also increased 648,756 net tons.

## INSPECTION DISTRICTS

The inspection districts of the state and the territory covered by each inspector remain the same as for the past year, although several changes were made in the inspection force.

McGinnis, inspector for the nineteenth district, was then transferred to the fifteenth district, and W. H. Prentice, of McDowell County, was appointed inspector of the nineteenth district.

These changes were made as of July 1, 1922, and the inspection force remained the same during the entire year and is as follows:

The mines of the state average 158 days during the past year as against 131 for the preceding year.

### COKE OVENS AND COKE PRODUCED

There were 31 coke plants in the state during the year which reported a total of 8,366 coke ovens, of which number 2,765 were in actual operation, there being 4,601 ovens not in use during the year.

There were 1,212,742 gross tons of coal converted into coke which gave a yield of 823,912 net tons of coke and gave employment to 713 persons. The increase in the production of coke as compared with the previous year was 648,756 net tons, at an increased valuation of \$4,856,317.50. The average price per ton of coke was \$7.14, an increase of \$1.23 per ton over the preceding year.

### MEN EMPLOYED

During the year there were employed at the mines and coke ovens within the state an average of 121,280 persons, an increase over the previous year of 13,571. Of the total number employed there were:

16,826.....	Pick miners
43,240.....	Machine miners
6,185.....	Machine runners and helpers
33,948.....	Inside laborers
20,368.....	Outside laborers
713.....	Coke workers

Counting the superintendents, mine foremen, fire bosses, store managers, stoie and office clerks, it would be safe to add five persons per mine employed in these capacities. Basing this estimate on 1,702 producing mines, it would make a total of 8,510 persons, or a grand total of employes directly connected with the operation of the mines of 129,790.

The nationalities of the persons employed in and around the mines are given in a tabulated form in another part of this report and the totals of the various nationalities are as follows:

American (white).....	70,460
Negroes.....	22,421
Italians.....	7,639
Hungarians.....	4,571
Polish.....	3,367
Austrian.....	1,669

Other nationalities.....	5,501
<b>TOTAL.....</b>	<b>121,280</b>

### SHIPMENTS OF COAL AND COKE

For the year ended June 30, 1923, the operating coal companies of the state reported 81,136,729 gross tons of coal and 823,912 net tons of coke as being shipped over the railroads from the mines in the state. They also reported for the same period 1,097,277 gross tons of coal as being shipped by river, 925,830 tons of which originated and was floated down the Great Kanawha, and 171,447 gross tons were shipped on the Ohio River. This does not include the tonnage of fuel consumed by water craft and local river trade. There was no coal shipped on the Monongahela River and no coke was shipped by water, either on the Kanawha, Monongahela or Ohio Rivers during the year.

### SELLING PRICE OF COAL AND WAGES PAID

During the year the average price received by pick miners throughout the state for mining run-of-mine coal was 97 cents, which was an increase of two cents over the price paid in 1922. The average tonnage produced by each pick miner was 1,237 tons, an increase of 126 tons over the fiscal year 1922. ## CONCLUSION

The foregoing contains only a summary of the most important information contained in this report, but a reference to the pages following will reveal the condition of the mining industry of the state and show something of its importance in our industrial development.

In conclusion permit me to express to you my sincere appreciation of the kind and courteous consideration given me, which has been of great benefit in carrying out my official duties. It would be neglectful, indeed, if I failed to state a few words in commendation of the splendid and efficient co-operation extended to the Department of Mines by the employes, officials and coal operators. To this united assistance credit is due, for without it the efficiency of this department cannot be maintained.

Respectfully submitted,

R. M. LAMBIE,  
Chief of Department of Mines.

Charleston, West Virginia,  
December 31, 1923.
